Abdulaziz Fahad Almodameeg

Software Engineer & Data Scientist

✉ Abdulazizalmodameeg@gmail.com 📞 +966564712006 📍 Riyadh, Saudi Arabia in [LinkedIn](#) ⊙ [Github](#) 🔗 [Portfolio](#)

Objective

Graduate in Software Engineering with hands-on experience in Data Science, Artificial Intelligence, and Generative AI. Passionate about designing and implementing scalable software systems and leveraging advanced AI technologies to deliver innovative solutions that drive business success and solve real-world challenges.

Education

King Saud University   08/2021 – 05/2025
Bachelor of Science - BSc, Software Engineering
GPA: 4.80/5 – Excellent with First Class Honors

Volunteer Experience & Communities:
- Contributed over 200 hours to various clubs, developing leadership, project planning, and teamwork skills while organizing impactful events and initiatives.
- Team Lead, Google Developer Student Club
- Member, Future Technology Club

Professional Experience

stc ☐   06/2024 – 01/2025
Data Scientist COOP Trainee   Riyadh, Saudi Arabia
- Developing AI and Generative AI applications using state-of-the-art technologies and frameworks
- Collaborated closely with senior developers, consultants, and cross-functional teams on company projects, gaining hands-on experience and contributing to real-world projects
- Worked closely with the biggest cloud providers such as Google Cloud and Microsoft Azure in Workshops and Proof of Concept (PoC) evaluations to deploy AI models
- Designing ETL processes to streamline database migration and integration between data warehouses and application databases
- Conducting Design Thinking workshops with stakeholders to refine and align solutions with their needs and expectations

Projects

Tashalih ☐
- Exhibited at LEAP 2025, showcasing Tashalih to global tech leaders, investors, and innovators, gaining valuable feedback and fostering key industry connections.
- Built a platform to revolutionize the used car parts industry, offering features like car and parts search, inventory management, and delivery tracking.
- Conducted market research by engaging with customers, dealers, and delivery agents to identify challenges and design a solution that meets their needs.
- Developed using Django, Django REST Framework, React.js, PostgreSQL, and Docker, deployed using Amazon AWS.

Skills

Technical Skills:
Java, Python, Django, REST APIs, php, React.js, JavaScript, TailwindCSS, PostqreSQL, Git, Github, Docker, Vagrant, LangChain, AWS

Soft Skills:
Leadership, Problem-Solving, Teamwork and Collaboration, Communication, Adapatability, Continous Learning, Relationship Building, Presentation Skills

Certificates

Certified Associate In Project Management (CAPM®) ☐ — Project Management Institute (PMI)

The Advance Pathways In Artificial Intelligence Bootcamp ☐ — Saudi Data and AI Authority (SDAIA)

AI Product Manager Nanodegree ☐ — Udacity

McKinsey Forward Program ☐ — Mckinsey & Company

Software Testing Using Agile Methodology ☐ — Tuwaiq Academy

Languages

Arabic (Native)   English (Fluent)
